

DynamicGraph::degree

```
graph LR; A[DynamicGraph::degree] --> B[DynamicGraph::indeg]; A --> C[DynamicGraph::outdeg];
```

The diagram illustrates the relationship between three graph-related terms. A central box on the left, labeled 'DynamicGraph::degree', has two arrows pointing to two boxes on the right. The top box is labeled 'DynamicGraph::indeg' and the bottom box is labeled 'DynamicGraph::outdeg'. The 'degree' box is shaded gray, while the 'indeg' and 'outdeg' boxes are white.

DynamicGraph::indeg

DynamicGraph::outdeg
